Blueprints and plans for 2019 projects are piling up in the Community Development Department.

**CITY PROJECTS**

Some of the biggest projects of the year will be led by the City.

Parks & Recreation is set to begin work on a new **Shooting Range** (see Parks & Rec page 2) and **Splash Park**. The new splash park will be built adjacent to The View pool area. Construction will start early 2019 and is expected to wrap up in the summer—perfect timing for cooling off in the sprays and fountains.

The City is also about to embark on one of its biggest Economic Development projects hinging on infrastructure.

The $15,000,000 conversion of the I-49 Outer Roads to two-way traffic is a long-anticipated catalyst for local businesses demanding accessibility in a city divided by an interstate.

Public Works staff worked for years to secure nearly $11,000,000 in grant money for the project, once again leveraging taxpayer dollars so Grandview citizens get more bang for their buck.

The conversion will be a design-build project with MoDOT.

Right-of-way acquisition is expected to begin anytime while construction is slated for late 2019.
GROWING STRONG

PRIVATE PROJECTS: BUSINESSES

Approval of a new CID is allowing Tutera Group to give a facelift to Main Street Station, level a vacant building on a pad site, and build a new restaurant.

The long-vacant Jiffy Lube at 6001 Main Street, east of the Main Street Bridge, was demolished in late November.

City Planners have approved plans for a new Dairy Queen. Construction is expected to begin any day with an anticipated restaurant opening in spring 2019.

Good-bye, Rodeway Inn! Teague Lumber Company is demolishing and renovating the vacant hotel as part of an expansion.

The new business site will include offices and a specialized lumber yard.

2018 BY THE NUMBERS

3,760 Inspections

$26,760,000 Permitted Construction Value

9% decrease in overall crime rate.

2 Grandview Fire Dept. Insurance Service Office Rating.

Previous Rating=4  Top Rating= 1

2020 VISION

Has it been ten years already?! Work on the 2020 U.S. Census is underway. Census workers have begun a home canvassing operation to ensure a complete address list next year.

Census workers could be in your neighborhood and will ALWAYS have official identification.
A CLOSER LOOK AT RENTAL INSPECTIONS

Grandview is one step closer to implementing a Rental Inspection Program.

Property owners have packed City Hall for three public hearings on the proposed ordinance requiring inspections of rental and non-owner occupied properties.

Under the proposed ordinance, inspections would occur during a change of occupancy, or at the request of a tenant. The City’s Minimum Preservation Standards would provide the guidelines for inspections.

The Board of Aldermen is expected to vote on the final ordinance on January 22. If approved, City Planner and Inspector Billie Hufford will lead inspections. “It would take some time to get going, probably until the spring,” explains Hufford.

Hufford has been working with property owners on registrations and answering questions about possible inspections. If you have questions, contact Ms. Hufford at bhufford@grandview.org.

WE’VE GOT YOUR BACKFLOW

No one wants to walk downstairs and find a sewer backup in their home or business.

For peace of mind Grandview offers a 50/50 Backflow Prevention Program where the City pays for half of any homeowner’s backflow installation up to $1000.

WHAT IS A BACKFLOW?

A backflow keeps sewer water from backing up into your home.

This is different than a sump pump, which pumps the rain water away from your home.

WHAT CAUSES BACKUP?

When a lot of rain falls too hard and too fast, the excess water can get into our sanitary sewers and become too much for the system. This is called a surcharged sewer and it can cause sewage to back up into homes and businesses.

HOW DOES THE PROGRAM WORK?

Homeowners need three different backflow installation estimates from licensed plumbers. The City will review the estimates and authorize you to go ahead with the work.

You will receive reimbursement once the work is complete, a City Inspector has been completed an inspection, and the work is approved.

To apply, the proper forms can be found online at the link provided above.

The City routinely cleans all sewer lines. It is a process that is taken seriously and rigorously documented. If you feel the City is at fault for any backup in your basement, please call (816) 316-4872 to file an insurance claim.

**EFT (Electronic Funds Transfer) deduction of money from one bank account.**
Meet our staff
In 2014 the citizens of Grandview voted for the no tax increase bond projects for Parks and Recreation. Two projects are slated to open this summer, which are the Shooting Range and the Splash Pod. The View Addition is set to break ground in 2019.

Shooting Range: The Shooting Range will be located at 13200 Arrington Road. The total cost of the project is $1,012,300. We were awarded a Land, Water, Conservation Fund grant for $250,000 to help offset the cost of the project. This range is part of the Safety Bond money and not Parks and Recreation funds. The Police Department needed a new range and the Land that is available was purchased with Land and Water Conservation Funds which means that the land is to remain Parks and Recreation land in perpetuity; so we partnered with the Police Department to open the range to the public. More details regarding days, time, and cost coming soon.

Splash Pad: The $1.8m Splash Pod will be attached to The View Community Center off of the pool deck. This amenity will be part of The View membership. Follow us on Facebook.com/Grandviewparks as we get closer to the completion date, look for the exact date and time of the opening. For details on membership, turn the page or call 816-316-4888.

The View: After surveying the public and members of The View, we found that over 65% would like to see our Fitness area expanded. The survey was made available via our e-newsletter, social media, city website, the Mayor’s Column in the Jackson County Advocate, and physical forms at The View over the course of 8 weeks. The $1.5m was made available via our general funds. The project is set to break ground in 2019.
